COOPERATIVE EDUCATION PROGRAM FOR ASSOCIATE DEGREE STUDENTS.....This program was established by Executive Order 12015 on October 27, 1977. Under guidelines announced by the Civil Service Commission, students at junior colleges, community colleges, and 2-year technical institutes may now enter into Federal jobs in 10 occupations on the basis of their experience in cooperative programs combining work in a Federal agency and related classroom training. The occupations covered under the new program are primarily technical positions including engineering technician, accounting technician, contact representative, biological and physical science technicians, and high level secretaries.

Upon completion of the requirements for obtaining a degree and required work assignments, students may be converted to career or career-conditional appointments. This program should be utilized to the maximum for expanding employment opportunities in the technical fields to qualified minorities, women and handicapped individuals. (Contact: Patricia J. GRASS ROOTS ORGANIZATIONS.....OEO is now updating "Grass Roots Organizations : A Directory for Reaching Minority Communities." IMPLEMENTATION OF THE FEDERAL GRANT AND COOPERATIVE AGREEMENT ACT OF 1977 (P.L. 95-224).....Despite earlier assurances to the contrary, OMB has drafted, without our prior knowledge, Governmentwide guidelines for implementing P.L. 95-224. Because of the extremely short turn around time, we were only able to provide limited informal comments on these initial guidelines at a meeting in OMB on May 1. The many comments made by Federal agencies at the meeting will be considered for inclusion in the official proposal to be published in the Federal Register by mid-May. If we get the requested advanced copies, we will distribute them as quickly as possible for Departmental comments. At present, OMB proposes to allow only 30 days for official comments. Therefore, we will need to have timely responses from Departmental agencies to insure that our views are included in the final guidelines. (Contact: Don Manns, O&F, ext. 77251)
